Professional Summary

Creative and detail-oriented Computer Science graduate with a strong passion for graphic design and UI/UX. Skilled in Adobe Photoshop, Illustrator, and Figma, with hands-on experience in developing visually engaging designs for web, applications, and marketing creatives. Possess a solid foundation in design principles, digital illustration, and motion graphics. Eager to contribute to a dynamic design team and grow as a professional graphic designer.

Core Design Skills

Graphic Design Tools: Adobe Photoshop, Illustrator, After Effects, Premiere Pro, InShot
Design & Creative: UI/UX Design, Logo Design, Banner Design, Social Media Creatives, Infographics, Iconography, Typography, GIF Animations
Web Technologies: HTML5, CSS3, JavaScript, Figma
Office Tools: Microsoft PowerPoint, Word, Excel
Other Skills: Visual storytelling, Creative problem solving, Time management, Collaboration

Education

Bachelor of Engineering in Computer Science
Rural Engineering College Hulkoti, VTU | Nov 2022 – 2025
CGPA: 7.06

Diploma in Computer Science
K.H. Kabbur Institute of Engineering | Nov 2019 – Dec 2022
Percentage: 75%

Relevant Projects

Heart Disease Prediction System (UI + Web Design + Django)
- Designed the user interface with emphasis on clean visuals and intuitive navigation.
- Used Figma and front-end tools to create responsive UI components for patient and doctor dashboards.

H2O System – DBMS Project
- Developed a fully functional interface for a water supply system using HTML, CSS, JavaScript, and PHP.
- Focused on user-centered design for efficient customer interaction.

Penetration Testing Project
- Documented and visually presented security gaps and fixes using infographics and reports.
- Gained skills in visually organizing technical data.

Anomaly Detection in Financial Transactions
- Visualized analytical results using graphs and dashboards with tools like matplotlib and seaborn.

Internship Experience

Cyber Security Intern
Tech Fortune Technologies, Bengaluru | Aug 2023 – Sept 2023
- Documented and presented findings with visual aids and graphics.

AI Data Quality Analyst Intern
Rooman Technologies | Sept 2024 – Feb 2025
- Developed project documentation and visual presentations of anomaly detection results.

Software Engineering & Excel Job Simulations
Goldman Sachs Forage Program | 2025
- Worked on simulated security and data visualization tasks, enhancing Excel and report presentation skills.

Web Hosting & Deployment Knowledge

- Experienced with domain registration, DNS configuration, and cPanel-based hosting.
- Deployed dynamic projects like H2O System and Heart Disease Prediction System on live servers.
- Skilled in local development using XAMPP.

Certifications

- Graphic Design Projects (UI/UX) – Personal & Academic
- UIUX with Figma and Adobe XD - UDEMY
- Software Engineering Simulation – Goldman Sachs (07/2025)
- Excel Skills for Business – Goldman Sachs (02/2025)
- AI Data Quality Analyst – Rooman Technologies (12/2024)
- Hashgraph Developer Course (09/2024)
- Life Skill 2.0 – Wadhwani Foundation (12/2025)
